

## **Agape Center SML Covid-19 Update – June 2020**

Stepping back into normal, there will be a few changes. First of all, we will be following Virginia's Phase 2 guidelines for limited capacity, physical distancing and heightened sanitary and disinfection practices. Main points:

- Clients must wear a mask when they come into the Agape Center unless they have a medical condition. When they are inside, it will be up to them whether or not they keep the mask on. In the mentor rooms, however, both the mentor and the client must be wearing masks. Clients will be encouraged to wear masks in the Store. Toy Room will be closed.
- No more than 1 person or child may accompany a client in the store.
- The given number of clients in the various client areas will be kept to a minimum. Chairs in the lobby and the hallway will be spaced apart.
- All mentor rooms will be open. Mentor and client and any one accompanying client required to wear masks.
- Plexi shields have been installed at the front desk, the appointment desk and in the USDA office.
- Hand sanitizer and masks will be available throughout the Agape Center.
- Client may get out of their cars to check the "Free" table, to load their groceries, household goods and furniture. Again, they will be encouraged to keep their masks on and the number of people in the outside areas will be monitored.
- The Gift Shop will be open. There will be many clients "shopping" for their birthday basket since none have been given out in recent months. Wearing of masks is encouraged.
- A written document has been prepared for our Spanish speaking clients with instructions explaining what they are to do under the current conditions.
